METHODOLOGY

Web survey using computer-assisted Web interviewing (CAWI) technology.

From May 8th to May 10th , 2020

1,526 Canadians and 1,004 Americans, 18 years of age or older, randomly recruited from LEO's online panel.

Using data from the 2016 Census, results were weighted according to gender, age, mother tongue, region, education level and presence of children in the household in order to ensure a representative sample of the population.

No margin of error can be associated with a non-probability sample (Web panel in this case). However for comparative purposes, a probability sample of 1,526 respondents would have a margin of error of $\pm 2.51\%$, 19 times out of 20, while a probability sample of 1,004 would have a margin of error of $\pm 3.09\%$, 19 times out of 20.

The research results presented here are in full compliance with the CRIC Public Opinion Research Standards and Disclosure Requirements.

METHODOLOGY

Notes on Reading this Report

The numbers presented have been rounded up. However, the numbers before rounding were used to calculate the sums presented and might therefore not correspond to the manual addition of these numbers.

In this report, data in bold **red** characters indicate a significantly lower proportion than that of other respondents. Conversely, data in bold **green** characters indicate a significantly higher proportion than that of other respondents.

A more detailed methodology is presented in the appendix.

If you have questions about the data presented in this report, please contact Christian Bourque, Associate and Executive Vice-President at the following e-mail address: cbourque@leger360.com or Jack Jedwab, President & CEO of the Association for Canadian Studies: jack.jedwab@acs-aec.ca

ANNEXES

DETAILED METHODOLOGY

Sampling Frame

Participants were randomly selected from LEO's online panel.

Leger owns and manages an Internet panel that includes more than 400,000 Canadians coast to coast. An online panel consists of Web users profiled according to different demographic variables. The majority of Leger's panel members (60%) were randomly recruited over the phone in the past ten years, which makes this panel very similar to the current Canadian population on a number of demographic characteristics. Moreover, 35% of panellists were recruited through affiliate programs and 5% through partner campaigns and programs.

To be eligible, respondents were required to be 18 years of age or older.

DETAILED METHODOLOGY

Weighted and Unweighted Sample

The table below presents the Canadian geographic distribution of respondents before weighting.

Province	Unweighted	Weighted
British Columbia	151	207
Alberta	100	104
Manitoba/Saskatchewan	126	100
Ontario	603	586
Quebec	421	358
Atlantic	100	104

The table below presents the American geographic distribution of respondents before weighting.

US region	Unweighted	Weighted
NorthEast	225	180
MidWest	199	218
South	316	372
West	264	234

DETAILED METHODOLOGY

Weighted and Unweighted Sample for Canada

The following tables present the demographic distribution of respondents according to gender, age and language (mother tongue) for Canada.

GENDER	Unweighted	Weighted
Male	766	741
Female	760	785

AGE	Unweighted	Weighted
Between 18 and 34	423	416
Between 35 and 54	506	520
55 or over	597	590

LANGUAGE (MOTHER TONGUE)	Unweighted	Weighted
English	928	996
French	364	317
Other	233	211

The sample thus collected has a minimum weighting factor of 0.1419 and a maximum weighting factor of 4.0017. The weighted variance is 0.4072.

DETAILED METHODOLOGY

Weighted and Unweighted Sample for The United States

The following tables present the demographic distribution of respondents according to gender and age for The United States.

GENDER	Unweighted	Weighted
Male	504	487
Female	500	517

AGE	Unweighted	Weighted
Between 18 and 29	118	221
Between 30 and 39	184	173
Between 40 and 49	190	187
Between 50 and 64	304	251
65 or older	208	173

The sample thus collected has a minimum weighting factor of 0.1419 and a maximum weighting factor of 4.0017. The weighted variance is 0.4072.
